

18oz Fiberglass Cloth FG1860AC

Description:

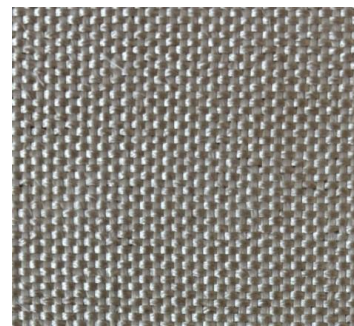

Acmetex FG1860AC fiberglass cloth is woven from continuous texturized E-fiberglass yarn and has been coated with a specialized acrylic compound. The acrylic coating is designed to improve the stabilization and raveling reduction properties of the fabric. One of the primary benefits of plain fiberglass cloth is its versatility. The flat, even surface of the fabric makes it easy to work with and customize to meet specific application requirements. It can be easily cut, sewn, or molded into a wide range of shapes and configurations, making it a popular choice for a variety of industrial and commercial applications.

Advantages:

- Heat resistant
- Durable
- UV Resistant
- Chemical resistant
- Versatile

Applications:

- Welding blanket/curtains
- Expansion joints
- High temperature insulation
- Heat shield/containment
- Gaskets & over-door seals
- Removable insulation cover

Property Data FG1860AC

Base cloth content/weave	100% E-Fiberglass Yarn/Plain
Fabric finish/Color	Set Weave Coating, tan colour
Weight	18oz/yd ²
Thickness	0.030"
Temperature resistance	1000°F (540°C)
Tensile Strength (lbs/in)	Warp: 250 lbs/in Fill: 200 lbs/in
Flame Resistance (sec)	Char length: 1 in max Afterglow: 1 sec max Flame out: 1 sec max
Size	60" * 50 yards
