

24oz Fiberglass Cloth FG2400

Description:

Acmetex FG2400 fiberglass cloth is woven from continuous texturized E-fiberglass yarn. One of the primary benefits of plain fiberglass cloth is its versatility. The flat, even surface of the fabric makes it easy to work with and customize to meet specific application requirements. It can be easily cut, sewn, or molded into a wide range of shapes and configurations, making it a popular choice for a variety of industrial and commercial applications.

Advantages:

- Heat resistant
- Durable
- UV Resistant
- Chemical resistant

Applications:

- Welding blanket/curtains
- Expansion joints
- High temperature insulation
- Heat shield/containment
- Gaskets & over-door seals
- Removable insulation cover
