5.4oz Vinyl Coated Fiberglass Cloth
VNF0183

Description:

Acmetex VNF0183 consists of base fabric that is woven from high-quality continuous E-fiberglass yarn. This lightweight yet robust fabric is then coated on either side with a layer of vinyl. The resultant cloth is very durable, yet flexible and is extremely versatile, allowing it to be used in many applications across numerous industries. The coating provides resistance to water, chemicals, and abrasions. In addition, it is inherently flame retardant, making it an excellent choice when high temperature is a factor.

Advantages:

- Durable
- Flexible and versatile
- Moisture resistance
- Chemical resistance
- Abrasion resistance
- Flame resistance

Applications:

- Insulation
- Fire/welding blankets
- Protective covers
- Chemical containment
- Sound insulation
- Sound attenuation blanket

Property Data
VNF0183

Base cloth content/weave	100% E-Fiberglass Yarn/Plain
Fabric finish/Color	Vinyl coated
Weight	5.4oz/yd ²
Thickness	0.005"
Temperature resistance	1000°F (540°C)
Size	50", 60" * 250 yards
